

Inputs required for examination of Industrial License applications:

Annexure - A

1	Land (Area of land and whether own, rented or leased) – independent area						
	enclose Land documents like rental agreement / lease deed / sale deed						
2	Total Revenue as on 31.03.2022	Profit as on 31.03.2022					
	Total Revenue as on 31.03.2021	Profit as on 31.03.2021					
	Enclose Balance Sheet and P&L Statement						
3	Technological Tie-ups / source of technology - enclose relevant proof						
4	Proposed Investment / Project Outlay [If company is running, pls indicate Existing Investment also] - enclose CA certificate						
5	Break Up of Project Cost Enclosed CA certified document		Land Building Plant & Machineries Preliminary expenses Working Capital Contingencies Others				
6	Means of finance Enclosed CA certified document		Term Loan : Promoter's Contribution:				
7	Net Worth (latest financial year) Enclosed CA certified document						
8	Annual Turnover (last 3 FY) (Defence & Non-Defence separately)		2021-22 : 2020-21 : 2019-20 :				
9	Projection of Manufacture items & Expenditure	on Financial Year	2022-23	2023-24	2024-25	2025-26	2026-27
		of Units					
		& Investment in Rs.					
10	Proposed Indigenization year wise in percentage (Mandatory)		2022-23	2023-24	2024-25	2025-26	2026-27
11	Proposed import year wise (Mandatory)		2022-23	2023-24	2024-25	2025-26	2026-27

	Quantity in Nos.					
	Amount					
12	Proposed Import year wise					
13	Existing Facility / Green field Project [If existing, furnish a small brief on company's current and past activities]					
14	Currently Manufacturing items					
15	Sector					
	Whether Machineries Available If yes, then list of available machines					
	Forward Detailed Project Report (Mandatory)					
	Manufacturing Process Flowchart (Mandatory)					
16	Proposed Quality Management Systems / Quality Assurance Plans (Mandatory)					
17	Details of Proposed infrastructure set up for quality production					
18	Details of Customers					
19	Provide a brief on Economic scenario and market outlook for the said items of manufacture – (Mandatory)					
20	Methodology for testing and trails for items of manufacture
